Importance of Real Interactions

Children experience
their rights through
their interactions with
the world.

Rights in Practice – Choice and Voice

What rights are being upheld or overlooked?

How might the child feel during this interaction?

How does active listening support the rights of the child?

It's not about
perfection

Children's Rights live in
our intention, not just
our routines

Everyone has a role

AND
INTENTION

04

CHOICE
AND
VOICE

PURPOSEFUL REFLECTION

What is one thing you can do differently tomorrow?

What does respectful engagement look like in your role?

It's not about doing more - it's about being aware
